

12-

Help us free Thrace!

Greece, who rendered such service to the human race, after a long struggle under the Turkish yoke, through

ΑΚΑΔΗΜΙΑ ΑΘΗΝΩΝ

the help and support of our classes in the United States, succeeded in obtaining in 1821, the national independence of a small portion only of the lands, inhabited by Greeks.

Now, however, that a new birth to downtrodden peoples of Europe is promised by your noble President and also your world, Mr Wilson, we are led to hold to the unwavering belief, that we, in Thrace, shall obtain our national freedom and our union with mother Greece, which is the only just solution for our beloved land, that underwent and is undergoing, such unheard of cruelties and persecutions from the bloodstained Bulgars and the cruel Turk, barbarities that officially have been vouched by international commissions, by cap-

sil, professors, etc.

The Greeks never since their independent nation... life ceased to be thankful to those that helped... whatsoever manner.

Therefore now, more than ever, trust to the free... loving sentiments of President Wilson, the American... nate and the general public in the United States... the land of Washington, Franklin and Lincoln, for the most valuable help, which alone will save us from... most inhuman and barbarous despotisms, that ever disgraced the soil.

We do not seek conquest, nor conquests, but the wis... ^{the love of freedom} Greeks... the land... The land...
is inhabited, from time immemorial by Greeks, who... whose whole civilization has been unable to change... racial aspect of land, which is absolutely Greek... and where neither Bulgar nor Turk succeeded in having any effect.

Since the fall of Constantinople, for over 500 years, we have never ceased to aspire for our freedom as... we are determined, Mr. Ediles, men and women, young... and old, to shed and our last drop of blood to attain... our national aspirations and trust to the United States, which in the past had not taken sides in the... quarrels of Europe but thought their imperat... ty, in the present war of throwing their most valua...
able

ΑΟΗΝηΝ

helps in shaking off the yoke from the downtrodden peoples of Europe, that they will assist us wholeheartedly in regaining our national freedom.

Trusting most earnestly, Mr. Editor, that you will continue through the columns of your eminent and liberty-loving paper to advocate, as in the past, our rights for a free life and the union with our fatherland Greece.

We remain

Yours very respectfully
