1870-1871 were our budgets, but we expect they may fluctuate  
somewhat. From time to time we provide for expenses we can't tell  
now. Our money will disappear gradually now, though, and we must  
work hard. In view of the time we have available, we must make our work  
as good as possible and efficient. We are not to expect less than  
the best from us. Working hard to prevent financial trouble is  
the easiest way to avoid it. It is better to take no money at all than  
to spend it foolishly. It is better to have partisans who support  
us fully and wholeheartedly. The Chinese government is doing its best to help us  
in our efforts to win freedom. We must not let them down.  
We must be careful not to offend the Chinese. We must  
not do anything that would damage their feelings. We must  
respect their culture. It is important to note, when in Sichuan, to avoid  
the towns that are populated by the Chinese. We should never  
let them interfere with us or harm us. We must be careful not to  
offend them.
